# Infra Red Kit

## FEATURES

- Plasma Friendly Hard Wired Infra-Red repeater kit for use in DIY &/or custom installation market to control an AV device at a remote location (up to 2.7m)
- Foxtel Approved - works with all Foxtel and all other receivers
- Includes discrete Flat IR target, junction box, two double emitters & switch mode power supply
- Blister pack for POS display

- Built in LED to show acknowledgement of IR commands
- Junction Box is compact and lightweight. All connections are plug and play, no requirements for cable stripping. Includes adhesive backing to facilitate placement of both target and emitters
- Target rejects interference from both plasma displays &/or from direct sunlight and fluorescent tube lights for accurate IR signal reception
